DOUBLING YARN – TECHNICAL DATASHEET

PRODUCT OVERVIEW

Doubling yarn produced by combining multiple yarn strands to achieve improved strength, uniformity, and performance. Used as an intermediate material in weaving, knitting, and narrow fabric manufacturing applications.

TECHNICAL SPECIFICATIONS

| Parameter | Specification |
|-----------------|-----------------------|
| Material | Cotton |
| Count Range | Custom |
| Ply | 2-ply , 3-ply , other |
| Twist Direction | S / Z |
| MOQ | Upto 5 ton |

APPLICATIONS

- Narrow fabric manufacturing
- Cotton tape & niwar production
- Rope & cord manufacturing
- Garment & home textile weaving

- Industrial textile application

MANUFACTURING & SUPPLY DETAILS

Manufacturing Type: In-house

Batch Size: Small to bulk production

Packaging: Cone / Spool

Lead Time: As per order quantity
