Textile Tape & Narrow Fabric Manufacturer

# COTTON NIWAR

# High-quality woven cotton niwar designed for durability, flexibility, and versatile applications

Manufactured using controlled weaving processes to ensure consistent quality, comfort, and reliable performance across furniture, textile, and general applications.

Precision weaving for durable and flexible cotton niwar

Designed for furniture support and general-purpose applications

## Features

- Soft and flexible structure for comfortable applications
- Durable cotton weaving for long-lasting use
- Breathable material suitable for furniture and bedding
- Uniform width and consistent finish

## Advantages

- Easy to handle and integrate into furniture and textile products
- Provides reliable support with flexibility
- Comfortable material for long-term use
- Consistent quality across production batches

## Applications

- Furniture support (charpai, chairs, cots)
- Bedding and upholstery
- Garments and textile use
- General binding and packaging applications

## Benefits

- Enhances comfort and usability in furniture
- Provides durable support without rigidity
- Cost-effective solution for multiple applications
- Reliable performance in everyday use
