

Nylon 66 Industrial Tape

**Precision-woven nylon66 tape
designed for high strength, stability,
and industrial performance**

for reinforcement, hose, and industrial applications

KIRAN ENTERPRISE

Textile Tape & Narrow Fabric Manufacturer

NYLON 66

High-performance nylon 66 woven tape designed for strength, durability, and consistent industrial applications

Manufactured using controlled weaving processes to ensure uniform structure, high tensile strength, and reliable performance in demanding industrial environments.

Precision weaving process for high-strength nylon 66 industrial tape

Optimized for controlled reinforcement and lightweight industrial applications

Features

- Lightweight structure suitable for precision applications
- Flexible and easy to handle for stitching and assembly
- Uniform weaving ensures smooth surface and consistent width
- Compatible with light-duty industrial and textile processes

Advantages

- Easy integration into garment and packaging systems
- Reduces handling effort due to lower weight and flexibility
- Consistent quality across batches for reliable performance
- Suitable for high-speed stitching and processing

Applications

- Garment manufacturing and textile stitching
- Lightweight packaging and binding
- Bag straps and accessories
- Narrow reinforcement applications

Benefits

- Improves finish quality in stitched products
- Enhances flexibility without adding bulk
- Cost-effective solution for lightweight applications
- Reliable performance in precision use cases

Technical Specifications

Material	Nylon 66
Width	25 mm
Thickness	0.036
Color	Natural Bright
Strength	Based on width & construction
Order Quantity	As per requirement
Packaging	Roll / Carton

Quality & Testing

- Tested at SASMIRA (Govt. approved lab)
- Complies with IS 1969 & ASTM standards
- Batch-controlled production Consistent
- mechanical properties

Disclaimer : Construction can be customized based on specific application requirements.
