

Nylon 66 Industrial Tape

**Precision-woven nylon 66 tape
designed for high strength, stability,
and industrial performance**

for reinforcement, hose, and industrial applications

KIRAN ENTERPRISE
Engineered Industrial Textiles

NYLON 66

High-performance nylon 66 curing tape designed for strength, durability, and consistent industrial applications

Manufactured using controlled weaving processes to ensure uniform structure, high tensile strength, and reliable performance in demanding industrial environments.

Precision weaving process for high-strength nylon 66 curing tape

Designed for reinforcement and industrial applications

Features

- High tensile strength for load-bearing applications
- Heat resistance for industrial processing
- Controlled weaving ensures uniform thickness and structure
- Stable dimensional properties with low shrinkage

Advantages

- Consistent performance across production batches
- Reduce risk of material failure under stress
- Suitable for heavy-duty and continuous use
- Compatible with industrial processing systems

Applications

- Hose reinforcement systems
- Conveyor belt manufacturing
- Industrial strapping and binding
- OEM and rubber calendaring applications

Benefits

- Improves durability of finished products
- Enhances reinforcement strength in critical areas
- Reduces long-term maintenance and replacement cost
- Reliable performance in demanding environments

Technical Specifications

Material	Nylon 66
Width	25mm to 100mm
Thickness	0.36 mm
Color	Natural Bright
Strength	Based on width & construction
Order Quantity	As per requirement
Packaging	Roll / Carton

Quality & Testing

- Tested at SASMIRA (Govt. approved lab)
- Complies with IS 1969 & ASTM standards
- Batch-controlled production
- Consistent mechanical properties

Disclaimer : Construction can be customized based on specific application requirements.
